Education

Bachelor of Engineering in Computer Science and Engineering (BE CSE), <i>S.A Engineering College</i>	08/2024 – 05/2028 Chennai, Tamil Nadu
Higher Secondary (Class 12), <i>Velammal Vidhyashram</i> CBSE 72%	2022 – 2024 Chennai, Tamil Nadu
Secondary (Class 10), <i>Velammal Vidhyashram</i> CBSE 72%	2020 – 2022 Chennai, Tamil Nadu

Technical Skills

Languages

JavaScript, Python, Java, HTML/CSS

Developer Tools

NumPy, Scikit-learn, GitHub, TensorFlow, Keras, Streamlit

Frameworks/Libraries

- TensorFlow
- Keras
- Streamlit
- Scikit-learn

Core Concepts

Computer Vision, Deep Learning , Transfer Learning, Image Classification, CNN

Projects

AI-Powered Visual Waste Classifier, <i> Python, TensorFlow, Keras, MobileNetV2, Streamlit</i>	2026
• Designed and developed an end-to-end computer vision web application to classify waste items (e.g., plastic, paper, metal) and provide eco-friendly disposal guidance. • Integrated a pretrained MobileNetV2 deep learning model using TensorFlow/Keras for efficient and accurate image classification. • Built an interactive user interface using Streamlit, enabling real-time image uploads, category predictions, and confidence score displays.	

Certificates

OCI Certified AI Foundations Associate by Oracle

- Understand AI and ML Basics.
- Explore Machine Learning and Deep Learning Fundamentals.
- Discover Generative AI and Language Model.
- Gain insights into deep learning, exploring convolutional and sequence models like CNNs and RNNs.

Additional Information

- Strong time management and self-discipline, consistently meeting deadlines while balancing academics and projects.
- Python for ML: NumPy, Pandas, Matplotlib, Scikit-learn; familiar with supervised/unsupervised learning and model evaluation.
- Seeking an AI/ML Engineer internship to build intelligent systems and solve real-world problems with data.
